

Silence - approximately one minute fifteen seconds  
 "Putting on masks"

**CANON**

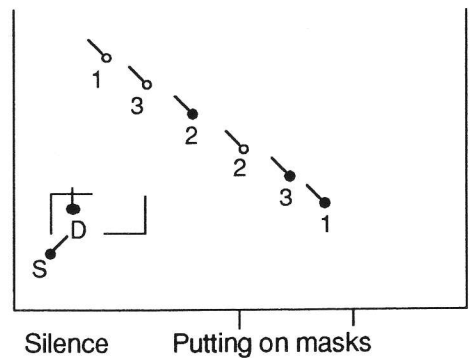

W1 puts on her mask first, but not until M1 has stopped walking. W1 can't see M1, so she must sense when he has arrived in place. W3 starts to put on her mask, when W1 has almost finished tying the strings of her mask. Then M2 starts to put on his mask, as W3 has almost finished tying her strings. And so the canon proceeds back through the line. The pace picks up slightly as the last three dancers put on their masks.

Tie strings from mask at back of head

Dance Notation Bureau

The instruction to "look at the Mask" is given as an option only. Each dancer puts on his mask in his own way using the notation as a general guide.
